

1879901

Mains decoupler comfort RMD Light control, light grey

Technical features

Functions

- Switches without loads to DC voltage without electric and electromagnetic fields

Controls and indicators

- with manual selection switch for automatic (decoupling) on/off

Main electrical features

Frequency 50 Hz

Voltage

Residual ripple typical 4 mV

Monitoring voltage 230 V DC

- Monitoring voltage measurable with Duspol

Electric current

Monitoring current max. 8 mA
Switching current 16 A

Power

Conventional transformers800 VAElectronic transformers1000 WMotors at $\cos \varphi = 0.4$ max. 1400 W

Materials

Colour independent of design lines light grey

Dimensions

Depth65 mmWidth of rail mounted device (RMD)2 modulesHeight90 mmWidth35 mm

Lighting control

- uncompensated 1000 VA

Fluorescent bulbs control

Energy-saving lampsmax. 160 WFluorescent lamps in duo circuit1600 VAFluorescent lamps parallel compensated700 VA

LED control

LED with green operation LED, with 2 yellow residual current indicator LEDs, with green status LED for decoupling

Incandescent bulbs control

230 V incandescent lamps and halogen lamps 2300 W

Equipment

- for illuminated switches/push-buttons with a neon lamp current of max. 8 mA

Use conditions

Operating temperature 0...40 °C

- with overheating protection

Identification

Application, usage	Light control
Main design line	Light control

Instructions

Information text

If a universal touch dimmer is to be de-coupled, the extension unit line length on extension units must be < 20 m.

To prevent heat problems due to mains overvoltage,

- when used with Tronic rotary dimmer (R, C), order no. 2874 of Bisters 1818 of the RND units. 2904 of the list and conjunction with control module for mains decoupler, order no. 188 11 modules.
- without extension unit for use with universal rotary dimmers, order no. 2834 .. or 2861 10
- when used with BLC universal touch dimmer (R, L, C), order no. 2902, only in conjunction with BLC button
