

2041

Mechanical timer, 120 min Light control

Technical features

Architecture

Technical version 2-pole off, 120 min

Functions

Running time 120 min

Configuration

- 2-pole off

Main electrical features

Rated voltage 250 V AC

Electric current

Switching current 16 AX

Materials

Material Plastic/metal

Dimensions

Insertion depth 32,3 mm

Installation, mounting

Installation mode without spreader claws

Connection

- with through terminal
- with screw terminals

Settings

- reset with slip-clutch

Identification

Application, usage Light control

Main design line Light control
