

2998

with soft-lock, Light control

Technical features

Controls and indicators

- with soft-lock

Main electrical features

Rated voltage	230 V AC
Frequency	50/60 Hz

Voltage

DALI voltage	16 V DC
--------------	---------

Electric current

Output current	max. 52 mA
----------------	------------

Fuse

Fuse	short-circuit and overload proof (electronic fuse)
------	--

Power

Power consumption	≤ 2 W
-------------------	-------

Materials

Material	Plastic/metal
Colour temperature	2000 / 10000 K

Dimensions

Insertion depth	31 mm
Axis dimension Ø	4 mm

Connection

Quantity of DALI devices with 4 active DALI potentiometers in parallel	104
Quantity of DALI devices with an active DALI potentiometer	26
- with screw terminals	

Settings

- basic brightness programmable

Scope of delivery

- with incremental encoder

Equipment

- switch-on brightness level can be stored safe after power failure
- with on/off pressure switch

Use

Differentiation characteristic 3 - Sales with soft-lock

temperatur

Ambient temperature -5...45 °C

Identification

Main design line Light control
