

61503404

Group push-button for installation in hollow-walls Modul-inserts

Technical features

Configuration

- Normally open contact

Main electrical features

Rated voltage 250 V AC

Electric current

10 A Momentary-contact current

Materials

Material Plastic/metal

Dimensions

Depth 42 mm 71 mm Height Width 71 mm

Installation, mounting

Installation mode low installation depth, without spreader claws

Connection

according to IEC 60669-1 Connection terminals according to VDE 0632-1 Connection terminals Type of connection Screw connection

- with screw terminals

Equipment

- for lighting and monitoring circuit

Safety

Protection index IP IP20

Identification

Application, usage HVAC control, Light control Main design line Modul-inserts
