IP30

# KNX radio switch actuator for plugs Electronics platform, polar white matt

Technical features

#### **Architecture**

Fixing mode surface-mounting

## **Functions**

- ETS additional functions: +6 scenes, operating mode on/off, forced control, status display
- reset function (to factory setting)
- Repeat function can be activated to increase the radio range
- easy additional functions: +6 scenes
- scene opening via KNX radio appliances
- scene saving lockable
- quicklink functions: switching, 2 scenes, time switching, NO contact push-button

## **Controls and indicators**

- with manual operation on/off
- with configuration and function button

## Connectivity

Bus system radio frequent	no
Bus system LON	no
Bus system Powernet	no
Radio protocol	KNX Radio
Receiver category	2

# Main electrical features

Frequency	V	50 Hz

#### **Electric current**

Switching current	16 A

# Frequency

Radio reception frequency 868,3 MHz

# Power

Output power	3680 W
Conventional transformers	1600 VA
Electronic transformers and dual-mode transformers	1200 W
C-load	no

# Measurement

Relative humidity (without condensation)	065 % (without condensation)
--	------------------------------

## Materials

Colour of design line	polar white
Surface appearance	matt

Assembling height 41 mm Height 98 mm Width 54 mm  Fluorescent bulbs control  Fluorescent lamps 28 x 36 W, max. 120 µ  LED control  LED with configuration and function LEDs, with control LED for On/Of Incandescent bulbs control  230 V incandescent lamps and halogen lamps 2300 V Connection - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive Transmitter duty cycle 13 Different phases connectable n  Use conditions  Operating temperature 045 % - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family output soutputs (SNX radio - actuator Product family) output	Dimensions	
Height 98 mm Width 54 mm Width 54 mm Fluorescent bulbs control Fluorescent lamps 28 x 36 W, max. 120 µ  LED control  LED with configuration and function LEDs, with control LED for On/Or Incandescent bulbs control  230 V incandescent lamps and halogen lamps 2300 V incandescent lamps and halogen lamps 300 V incandescent lamps and halogen lamps 300 V incandescent lamps and halogen lamps 400 V incandescent	Depth	77 mm

Fluorescent bulbs control  Fluorescent lamps 28 x 36 W, max. 120 µ  LED control  LED with configuration and function LEDs, with control  230 V incandescent bulbs control  230 V incandescent lamps and halogen lamps 2300 V  Connection  - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings  - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included nn  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive 11 constituted 11 constituted 11 constituted 11 constituted 12 constituted 13 constituted 13 constituted 14 constituted 15 con	Height	98 mm
Fluorescent lamps 28 x 36 W, max. 120 µ  LED control  LED with configuration and function LEDs, with control  Incandescent bulbs control  230 V incandescent lamps and halogen lamps 2300 V  Connection  - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings  - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included nn  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive 1 constituted	Width	54 mm
LED control  LED with configuration and function LEDs, with control  230 V incandescent lamps and halogen lamps 2300 V  Connection - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of quicklink links max. 20 transmitter/receive 1 constituted in 1 constituted	Fluorescent bulbs control	
LED with configuration and function LEDs, with control LED for On/Or Incandescent bulbs control  230 V incandescent lamps and halogen lamps 2300 V  Connection - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive Transmitter duty cycle 1  Different phases connectable n  Use conditions  Operating temperature 045 ° - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	Fluorescent lamps	28 x 36 W, max. 120 μF
Incandescent bulbs control 230 V incandescent lamps and halogen lamps 2300 V  Connection - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive 1 can be a simple of purpose of the product family coutputs  Use conditions  Operating temperature 045 ° - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output can be a simple of product family: output output family: output can be a simple of the country of the can be a simple of the can be a	LED control	
230 V incandescent lamps and halogen lamps  Connection  integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings  toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included  n  Equipment  Number of outputs  Number of quicklink links  max. 20 transmitter/receive  Transmitter duty cycle  Different phases connectable  n  Use conditions  Operating temperature  low intrinsic energy requirement  Identification  Application, usage  KNX radio - actuator Product family: output	LED	with configuration and function LEDs, with control LED for On/Off
Connection  - integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings  - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive 1 constitute duty cycle 1 constitute duty cycle n  Different phases connectable n  Use conditions  Operating temperature 045 constitute energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	Incandescent bulbs control	
- integration in the KNX radio/TP gateway, surface-mounted, into the KNX TP system  Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive  Transmitter duty cycle 1 conditions  Use conditions  Operating temperature 045 color low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	230 V incandescent lamps and halogen lamps	2300 W
Settings - toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive  Transmitter duty cycle 1 of pifferent phases connectable n  Use conditions  Operating temperature 045 of low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	Connection	
- toolless quicklink configuration using buttons and LED display  Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive Transmitter duty cycle 1 1 G  Different phases connectable n  Use conditions  Operating temperature 045 G  - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	- integration in the KNX radio/TP gateway, surface	-mounted, into the KNX TP system
Scope of delivery  Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive  Transmitter duty cycle 1  Different phases connectable n  Use conditions  Operating temperature 045 °  - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	Settings	
Bus connection included n  Equipment  Number of outputs  Number of quicklink links max. 20 transmitter/receive Transmitter duty cycle 1 1 0  Different phases connectable n  Use conditions  Operating temperature 045 0  - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family: output	- toolless quicklink configuration using buttons and	d LED display
Equipment  Number of outputs  Number of quicklink links  Transmitter duty cycle  Different phases connectable  Use conditions  Operating temperature  - low intrinsic energy requirement  Identification  Application, usage  KNX radio - actuator Product family  product family: output	Scope of delivery	
Number of outputs  Number of quicklink links  Transmitter duty cycle  Different phases connectable  n  Use conditions  Operating temperature  low intrinsic energy requirement  Identification  Application, usage  KNX radio - actuator Product family	Bus connection included	no
Number of quicklink links max. 20 transmitter/received Transmitter duty cycle 10 Different phases connectable n  Use conditions Operating temperature 045 or low intrinsic energy requirement  Identification Application, usage KNX radio - actuator Product family output	Equipment	
Transmitter duty cycle 1 of 1 o	Number of outputs	1
Use conditions  Operating temperature 045 ° low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family	Number of quicklink links	max. 20 transmitter/receiver
Use conditions  Operating temperature 045 ° - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family product family: output	Transmitter duty cycle	1 %
Operating temperature 045 °c - low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator Product family product family: output	Different phases connectable	no
- low intrinsic energy requirement  Identification  Application, usage KNX radio - actuator  Product family product family: output	Use conditions	
Identification       Application, usage     KNX radio - actuator       Product family     product family: output	Operating temperature	045 °C
Application, usage KNX radio - actuator Product family product family: output	- low intrinsic energy requirement	
Product family product family: output	Identification	
	Application, usage	KNX radio - actuators
Main design line Electronics platform	Product family	product family: output
	Main design line	Electronics platform
