

85320100

IP20

Extension unit for motion detector Electronics platform

Technical features

Main electrical features

Frequency	50/60 Hz
-----------	----------

Voltage

Operating voltage	230 V AC
-------------------	----------

Fuse

Fuse	short-circuit and overload proof (electronic fuse)
------	--

Measurement

Relative humidity (without condensation)	0...65 % (without condensation)
--	---------------------------------

Materials

- no conductive connection between supporting ring and spreading claws

Dimensions

Insertion depth	32 mm
-----------------	-------

Connection

Screw terminals (max.)	2 x 1,5/1 x 2,5 mm ²
------------------------	---------------------------------

Number of motion detector extension units	unlimited
---	-----------

- with screw terminals

Cable

Cable length, extensions	max. 50 m
--------------------------	-----------

Use conditions

Operating temperature	-5...45 °C
-----------------------	------------

- low intrinsic energy requirement

Identification

Application, usage	Motion detector
--------------------	-----------------

Main design line	Electronics platform
------------------	----------------------
