Temperature sensor Light control

Technical features

Resistance

Characteristic resistance value at 25 °C	33 kΩ
--	-------

Materials

Colour of design line	black
-----------------------	-------

Colour	black
--------	-------

Connection

Sensor cable length	4 m
---------------------	-----

Use conditions

- for thermostat time-controlled

Identification

Application, usage	KNX - sensors, HVAC control
--------------------	-----------------------------

Main design line	Light control
------------------	---------------

Secondary design line(s)	HVAC-control, ACCESSORIES
--------------------------	---------------------------
