

450210

Aerial socket 2hole single box Communication technology

Technical features

Functions

- Suitable for HDTV

Connectivity

- for terrestrial reception
- for digital and analogue transmission

Voltage

- direct voltage conducting (IN / IEC jack female)

Frequency

Broadband technology 5...2400 MHz

Resistance

Wave impedance 75 Ω

Attenuation

Tap loss at 2150 MHz 5 dB

Tap loss at 860 MHz 4 dB

Installation, mounting

- for single and distributor SAT systems
- for community, DVB-T and broadband cable systems

Connection

- with plug-in terminals

Equipment

- external eyelets on the supporting ring can be broken off for round designs

Standards

General standards EN 50083-2 and EN 60728-4

Safety

Protective screen according to EN 50083-2, Class A

Protection index IP IP20

Use conditions

Operating temperature -25...55 °C

Identification

Application, usage Communication technology

Main design line Communication technology
