

75492002

IP54

Brightness and temperature sensor surface-mounted KNX, polar white

Technical features

Architecture

Fixing mode	surface-mounting
-------------	------------------

Configuration

- logic AND operation of the limit values can be set for each channel
- additional sun protection channel with objects for Venetian blind control
- 4 independent channels with individual limit values for processing brightness and/or temperature

Voltage

Operating voltage over bus	21...32 V DC
----------------------------	--------------

Materials

Colour of design line	polar white
Colour	white
RAL colour	RAL 9010 - Pure white

Dimensions

Depth	54 mm
Height	110 mm
Width	72 mm

Lighting control

Brightness measuring range, linear	1...100000 lx
------------------------------------	---------------

Connection

- with integral bus coupling unit
- bus connection via connecting terminal

Equipment

Product type:	product type: brightness/temperature
---------------	--------------------------------------

Safety

Halogen free	no
--------------	----

Use conditions

Operating temperature	-25...55 °C
-----------------------	-------------

temperatur

Temperature measuring range, linear	-25...55 °C
-------------------------------------	-------------

Identification

Application, usage	KNX - sensors
Product family	product family: physical sensors
Main design line	KNX
