

75904001

IP30

IR hand-held transmitter for presence detector black matt

Technical features

Controls and indicators

- with green "on" and red "off" button (on/off, dimmer function)
- with 4 function buttons (calling up/saving light scene)

Battery

Battery service life [years]	≈ 3,5
------------------------------	-------

Detection

IR	RC6 code
----	----------

Materials

Surface appearance	matt
--------------------	------

Dimensions

Length	120 mm
Height	111,7 mm
Width	68 mm

LED control

LED	additional acknowledgement LED for displaying the IR transmission
-----	---

Safety

Protection index IP	IP30
Halogen free	no

Identification

Application, usage	Motion detector, KNX - sensors
Secondary design line(s)	Motion detector, House electronics, KNX

Instructions

Information text	Scope of functions dependent on the controlled presence detector.
------------------	---

- also for KNX applications - KNX IR presence detector
