

LED unit 230 V, for for wiring with switches/push-buttons Berker W.1, red

Technical features

Architecture

Technical version 230 V~, 0.4 mA

Controls and indicators

- for rocker switches/rocker push-buttons

Main electrical features

Rated voltage 230 V AC

Frequency 50 Hz

Power

Current consumption 0,4 mA

Endurance

Service life of the LED ≈ 50000 h

LED control

LED very long LED service life

Use conditions

Operating temperature -40...30 °C

Storage/transport temperature -50...50 °C

Identification

Application, usage Light control, Surface-mounted wet-room installation, Flush-mounted wet-room installation

Main design line Berker W.1

Secondary design line(s) ACCESSORIES, Berker W.1
