

LED modul for Rotary switch KNX

Technical features

Architecture

Technical version	230 V~, 0.9 mA each
-------------------	---------------------

Materials

Material	plastic
----------	---------

Lighting control

Type of lamp	LED
--------------	-----

Connection

- with screw terminal

Identification

Application, usage	Light control
--------------------	---------------

Secondary design line(s)	ACCESSORIES
--------------------------	-------------

Instructions

- Refer to the overview for the matching flush-mounted inserts.
